How to do an APA Reference page

Start your References on a new separate page. Center the word References at the top of the page. References are always listed in alphabetical order, double spaced, and have a hanging indentation. Indent after 1st line (one half inch). Use Times New Roman size 12 font. If there is no author, the reference citation starts with the first word of the article title. Author names are inverted (last name first and then only initials of author(s) first name and/or middle name).

Capitalize the major words in a journal title, but capitalize only the first letter of the first word of an article title (and the first letter of the first word after the colon in a 2 part title), and proper nouns, in works that are not journals – such as books, articles, etc.

Citation for a book
Author. (Date of publication). *Italicized title*. Place of publication: Publishing company.

Book  (Single author; Use initials for first and middle names.)

Citation for an article retrieved from a Library database with a doi
Author. (Date of publication). Title of article. *Italicized title of journal, magazine or newspaper, Volume* (Issue), Pages. doi(digital object identifier)

Journal article with doi

Citation for an article retrieved from a Library database without a doi
Author. (Date of publication). Title of article. *Italicized title of journal, magazine or newspaper, Volume* (Issue), Pages. Retrieved from http://www.xxxxxxxxx
(home page URL for the journal, newsletter, or magazine)

Journal article without doi - If no doi is assigned to the content and you retrieved it online, include the home page URL for the publisher of the journal, newsletter, or magazine in the reference citation.

Newspaper article found on the Internet:

Stand-alone document on the Internet, no author, title of site, no date:

Article found on the Internet from the WebMD website (no author):
